ABOUT ME

I believe a designer's role is to find unique solutions utilizing timeless design to effectively communicate and tell a story. With over a decade of experience I know my way around Adobe Creative Suite and can spot a trend coming. I've designed corporate reports and presentations, created catalogs and written marketing copy, and designed childrens books and crafts. I am dependable, take pride in good work, and appreciate feedback. I would love to talk with you about my experience and what I can bring to your team.

EXPERIENCE
